

ELSA MATHEW

SOFTWARE ENGINEER

Ernakulam, Kerala | elsamathew027@gmail.com | +91 9746617309 | www.linkedin.com/in/elsa-mathew-362b10245 | <https://github.com/elsamathew27>

SUMMARY

MCA graduate with strong proficiency in server-side language like Python, deep understanding of OOPs concept, and backend development, with hands-on experience building Django-based web projects using REST APIs and SQL databases collaborating with frontend technologies like HTML, CSS, JavaScript, and React. Completed a four-month Python Full Stack Development Course from Linnk Academy (Kakkanad) with onsite experience, working on enterprise applications, backend modules, and Python automation scripts using Git and modern web technologies. Strong understanding of Computer Science fundamentals including Data Structures and Algorithms. Highly motivated, with strong independent problem-solving skills, effective time management, and clear communication, and eager to contribute to structured enterprise development environments.

EDUCATION

Master of Computer Applications (MCA)

2023 - 2025

Union Christian College, Aluva

Bachelor of Computer Applications (BCA)

2020 - 2023

ST. Thomas Arts and Science College, Puthenchurish

PROJECT

ElectricoX — Online EV Charging Station Booking Platform

JAN 2023 - APRIL 2023

Technologies: Python (Django), HTML, CSS, JavaScript, MySQL

- Developed a Django-based full-stack web application for online EV charging station booking and management with modular backend architecture.
- Implemented user authentication, booking workflows, and database models with CRUD operations and SQL-based data handling.
- Designed responsive frontend interfaces and integrated REST-style endpoints to support scalable, enterprise-like usage.

Medicare — Hospital Management System

JAN 2025 – APR 2025

Technologies: Python, HTML, CSS, JavaScript, MySQL

- Developed a web-based hospital management system supporting patient registration, doctor scheduling, appointment booking, billing, prescription management, and video consultation.
- Implemented backend booking logic and CRUD operations using Python and SQL, ensuring data consistency and preventing scheduling conflicts in MySQL.
- Designed responsive user interfaces and structured database workflows to enable smooth, automation-ready healthcare service management.

Ooh.La — Online Hamper Booking System

NOV 2025 — JAN 2026

Technologies: Python, HTML, CSS, JavaScript, MySQL

- Developed an online platform for customized hamper booking and order management with clear backend business logic.
- Built backend modules for users, products, and orders, including CRUD operations and structured data workflows.
- Designed responsive frontend interfaces and integrated secure database handling to support smooth transactional operations.

AI Sentiment Analysis Web Application

JAN 2026 — FEB 2026

Technologies: Django, React, NLP

- Built full-stack sentiment analysis web app using **Django REST Framework and React.js**.
- Implemented **NLP-based sentiment classification** using TextBlob.
- Developed REST APIs and interactive React frontend for **real-time sentiment prediction**.

INTERNSHIP

Python Full Stack Development | Oct 2025 – March 2026

Linnk Academy (Linnk Group), Kakkanad, Kerala

- Completed Python Full Stack Developer training covering backend, frontend, database development, and foundational AI/ML concepts.
- Built Django-based backend applications with REST APIs, CRUD operations, authentication, and authorization for structured enterprise-style workflows.
- Developed responsive web interfaces using HTML, CSS, and JavaScript, ensuring smooth integration with backend services.
- Studied to GitHub repositories and code samples to understand best practices, project structure, and enterprise-level development workflows
- Learned to connect Python backends with AI services and APIs, exploring how machine learning and generative AI can be used in enterprise applications for smarter automation and data-driven decision support.

SKILLS

TECHNICAL SKILLS: Languages: Python, SQL, JavaScript, HTML, CSS, React, AI/ML

Framework: Django, DRF, FastAPI

Database: MySQL

Tools & Platforms: GitHub, VS Code, Linux

SOFT SKILLS: Effective Communication, Proactive Learning, Teamwork, Problem-Solving, Logical thinking, Time management.
